A Trip to Chinatown.

Possibly, the show last night at the Auditorium was rather the smartest performance ever in the place, so full was the play of good situations and the people at hand to fill 'em.

Harvey, the leading man, is a very funny fellow, and is as full as he can stick of little tricks which kept the house in a condition bordering on convulsion. The leading lady, Miss Biggar, played the gay widow, and the way she "took notice" electrified everyone in house.

The company as a whole was unusually good, way above our average, and it should be a very considerable pointer to our local managers in their book-

Not a small feature of the evening was the music rendered by Arnold's orchestra. One can scarcely be too extravagant in his praise of the work done by this body of musicians. Thewaits is not the word-treats between the acts were as enjoyable as was the work of the actors.

The house, the audience, the music and the players, conspired to make to make a most agreeable ensemble.

The invention of Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. of all cases of consumption, in all its earlier stages, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in misrepresenting them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery," but who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty codliver oil and its filthy "emulsions" and mixtures, had been tried in nearly all these cases and had either utterly failed to benefit, or had only seemed to benefit a little for a short time. Extract of malt, whiskey, and various preparations of the hypophosphites had also been faithfully tried in vain. The photographs of a large number of those cured of consumption, bronchitis, lingering coughs, asthma, chronic nasal catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write those cured and learn their experience.
